Index to Volume 15*

A

Abdominal injury, peritoneal lavage technique to evaluate, 129-138
Abortion, 343
Acetaminophen
  comparison of colorimetric method with high pressure liquid chromatography in determination of in plasma, 427-435, 476-477
  overdose, 330-332
  pathophysiology of toxicity of, 329-330
  pharmacokinetics of, 321-322
  quantitative determination of in serum by colorimetric method, 67-73
  versus aspirin. See Aspirin versus acetaminophen
2-Acetylaminofluorene (2-AAF), techniques for determining identity, purity, and stability of, 585-586
Adams, R., 475
Agricultural chemicals studies, 470-471
Alcohol
  abusers, tolerance of to secobarbital and methaqualone, 24, 33-35, 36
[Alcohol]
  influence of on sexual response, 76-79
Allen, M. D., 151-158
Amato, A., 480
Ambre, J. J., 487

American Association of Poison Control Centers
  abstracts of papers presented at combined meeting, 467-498
  membership list of, 357-385
American Board of Medical Toxicology, abstracts of papers presented at combined meeting, 467-498
Amphetamine
  abuse of among professional football players, 225-232
  abusers, tolerance of to secobarbital and methaqualone, 24, 33-35, 36
  influence of on sexual response, 80

*This index contains the names of all contributors to Volume 15, 1979.

Amyl nitrite, influence of on sexual response, 83
Anabasine, content of in Nicotiana glauca (tree tobacco), 417-426
Andreucci, G., 480
Angle, C. R., 467, 469
Animal husbandry in the laboratory, 539-553
  caging, 541-542
  chemicals in the facility, 545-547
  clinical surveillance and assessment of, 548-549
  dosing with chemicals, 542-545
  facilities, 540-541
  personnel, 547-548
  See also individual animals
Antiadrenergic agents, influence of on sexual response, 85-87
Anticholinergic agents, influence of on sexual response, 85
Anticholinergic syndrome, emergency treatment of, 485
Antidepressants, emergency treatment of poisoning by, 485
Antidotes, 473-474
Apricot seeds, cyanide poisoning by, 489-490
Aronow, R., 490-491, 495-496, 496
Aspirin
  in juvenile rheumatoid arthritis, 335-338
  in pregnancy, 338-340
  versus acetaminophen, 313-340
    in allergic children, 333-335
    dangers of, 313-315
    effects of on hemostasis, 319-321
    efficacy of, 315-317
    effects of salicylate on the stomach, 317-319
    overdose of, 326-328, 330-332
    pharmacokinetics of, 321-324
    pathophysiology of toxicity of, 324-326, 329-330
Atomic absorption spectroscopy, liquid pressure technique for solubilizing human tissues as a pretreatment for, 293-300
Autoradiography, determination of methylmercury levels in monkeys by, 471

Baboon studies, effects of phthalate esters on, 452
Baker, E. L., 13-21
Bakke, O. M., 139-149
Banner, W., 39-44, 493
Barbiturate
  influence of on sexual response, 79
  overdose of, assessment of charcoal hemoperfusion in treatment of, 139-149
Baselt, R., 489-490
Bayse, D. D., 159-167
Benard, P., 471, 478-479
Bennett, D. L., 476, 482-483, 487
Benzidine, surveillance of laboratory personnel and work areas while testing, 591-592

Cantharides (Spanish Fly), influence of on sexual response, 83
Capurro, C., 193-195
Capurro, P. U., 193-195
Carbamazepine, centrifugal analyzer EMIT procedure for, 497
Carcinogenicity
bioassay of, of toxaphene, 121-126
revisions to, 255
lifetime feeding studies of, mathematical model for research design of, 566-568
Carrageenan, toxicity of in newborn guinea pigs, 482
Carruthers, S. G., 281-285
Central nervous system excitatory and depressant agents, biphasic continuum of, 495
Centrifugal analyzer, EMIT procedure adapted to, 497
Certification requirements, of the American Board of Medical Toxicology of the American Association of Clinical Toxicologists, 499-503
Chamberlin, S., 476
Chandler, H., 488
Chiaverelli, M., 480
Children
asthmatic, aspirin versus acetaminophen for, 333-335
effect of airborne lead on, 469
emergency treatment of ingestions by, 485
juvenile rheumatoid arthritic, aspirin use by, 335-338
phencyclidine overdose in, 490-491
Children's hospital, clinical toxicology training program in conjunction with clinical pharmacology in, 387-392
Chin, L., 473
Chloracne, presence of in workers exposed to propanil, 13-21
Chloramphenicol (CAP), high performance liquid chromatographic microassay for, 498
Chlorodyne, 341-342
Cholinesterase monitoring, determination of carbamate

[Cholinesterase monitoring]
poisoning by, 13-21

Polybrominated biphenyl (PBB), Michigan ruling on toxicity of, 345-348
Polychlorinated biphenyl (PCB), 1968 epidemic poisoning by in Japan, 479
Polydrug abuse population, dose-response tolerance to secobarbital and methaqualone in, 23-37
Pregnancy
in cows, congenital deformities in calves from ingestion of wild tobacco during, 417-426
in humans
influence of laetrile on infant when taken during, 181-184
aspirin and, 338-340
Prescriptions, illegible, as source of potential poisonings, 481
Prevention, 474-475
Prevention programs. See Poison prevention programs
Primidone, centrifugal analyzer EMIT procedure for, 497
Propanil, presence of chloracne in workers exposed to, 13-21
Propoxyphene napsylate, intravenous self-administration of, 492-493
Propranolol
analysis of in serum by high performance liquid chromatography, 63-66
influence of on sexual response, 85
Protein, influence of interaction of with fluoride on bone breaking strength and radiodensity in guinea pigs, 301-311
Psychoactive substances, availability of from health food stores and by mail, 475
Pyrimethamine, teratogenicity of, 468
